LETTER OF RECOMMENDATION

I am writing this letter to recommend Vilas Harapanahalli, who was one of my students during his eighth semester and third semester at Rao Bahadur Y. Mahabaleshwarappa College of Engineering, where I had the pleasure of teaching him in a variety of courses such as Software Engineering,Mobile Application Development , Artificial Intelligence, and the Internet of Things (IoT).

Vilas has constantly exhibited a thorough understanding of complicated technical topics, as well as an exceptional ability to apply them in practice. Throughout the semester, he demonstrated a thorough comprehension of the concepts presented, particularly in Deep Learning and AI, where he was able to create and execute projects demonstrating both creativity and technical expertise.

Vilas has demonstrated remarkable problem-solving abilities, notably in IoT, App Development, AI, and Storage Area Networks, demonstrating his ability to think critically and interact effectively with others. His swift adaptation to new technology and commitment to lifelong learning are evident, as he actively engages in class discussions, asks insightful questions, and searches out extra resources to improve his comprehension. His personal projects demonstrate his interest in technology, demonstrating his desire to develop and study outside of the classroom.

He is a responsible and constant person with a strong work ethic and dedication to excellence. He performs well under pressure, managing several projects while maintaining high standards of performance. His technical expertise, eagerness to learn, and dedication make him valuable in both academic and professional settings. I am completely confident in his capacity to succeed in any venture and would fully suggest him for any position.

Subject Taught: Software Engineering Mobile Application Development , Artificial Intelligence, IOT

Please feel free to contact me if you require any further information.

Regards,

13/12/24

Prasanna Kumar S Shivaraddi
Assistant Professor
Department of Computer Science and Engineering
